

Thank you for registering!

Minimum requirement for entries

Each competitor should include the following aspects in their submission.

TYPE OF FIRE REQUIRED

Heating, purely decorative or a bit of both.

THE APPLICATION OF THE FIRE

Residential or commercial

TECHNICAL RESEARCH

Including flue requirements, clearances & construction constraints

CONCEPT SKETCHES

A hand drawn concept sketch of the fireplaces including plan, front and sectional views

WORKING DRAWINGS

A set of line drawings in REVIT or CAD format.

RENDERED DRAWINGS

Show finished rendered drawings in full colour that would typically be presented to a client

1. Entries are open to any certified practicing architect or designer, or a student of architecture currently enrolled in a recognized university.
2. Entries are only open to residents of Australia.
3. Employees of Glen Dimplex Australia are excluded from entry.
4. Employees of Bates Smart and Architects EAT are excluded from entry.
5. The judging panel will have full control over voting of submissions. Their decision will be final and no correspondence will be entered into.

The Real Flame Architectural Design Award (ADA) for Gas Fireplace was created to foster innovation within the Australian Design industry.
