

VISTA

REAL  FLAME

The Vista is the perfect blend of rich flame experience in an elegant design. With sparks jumping off glowing Nordic logs and the crackling sound of a wood fire, the Vista gives you a lifelike flickering flame effect. Created with Opti-V technology, choose from a 3-sided or front facing option, both with a stunning 400mm viewing window and with an unparalleled ribbed back finish to enhance the visual depth of the fire.

Coziness meets functionality with the thermostatic heater, providing warmth and comfort at your fingertips. Even when the fire is off, the ceramic logs and aesthetic create a beautiful focal point.

The Vista is the ultimate virtual electric fire and available in 2 sizes; 70 and 130. With 2 installation configurations and plug in the 2kW heating instead of the back panel.

VISTA

70 | + III • 1300 | + III
